

Take Your Next Steps With Kagan

Now that you have taken a big first step with Kagan, ensure your professional development investment pays off by ensuring successful and sustained implementation.

3 Best Steps for Success

By working with thousands of educators for decades, we've identified the three most important steps that lead to the greatest success with Kagan.

1 Bring in a Kagan Coach

A Kagan Coach can coach approximately 16–20 teachers in one day to ensure they are using Kagan Structures correctly. Your Kagan Coach will provide friendly accountability and will support your teachers with helpful suggestions that make all the difference. Accountability and support produce tremendous results.

2 Complete the Training

Cooperative Learning is a 5-day course. Give your teachers the benefit of all 5 days of training. More training means more Kagan knowledge, more skills, more structures, and more engagement!

3 Create a Long-Term Plan for Success

Let Kagan help you create an implementation plan. We know what works! Let's work together to create a plan that will help your teachers thrive with this revolutionary teaching method.

More Engaging Workshops

Once teachers are fully implementing *Cooperative Learning*, enhance skills with other Kagan workshop topics such as Win-Win Discipline, Brain-Friendly Teaching, Social-Emotional Learning, elementary and secondary subject-specific workshops, and more! Check Kagan's website for a complete list of workshops and full descriptions.

The Crucial Role of Administrators

Administrators who attend Kagan workshops with their teachers and observe Kagan Coaches are better able to support their teachers. We **highly recommend** administrators take part in the training and the coaching. Kagan also offers specialized leadership trainings including: Cooperative Meetings, Kagan Coaching, and Instructional Leadership Academy.

It's All About Engagement!

This Step → Your Next Step

1-Day CL Workshop	→	Either CL Day 2 or Kagan Coaching.
2-Day CL or Day 2 CL Workshop	→	Kagan Coaching. We strongly recommend no teacher goes beyond the first 2 days of CL without a visit from a Kagan Coach.
After 2 Days of Kagan CL and Coaching	→	Continue with CL Days 3–5, mixing in Kagan Coaching for continued support with implementation. Schedule coaching days as much as possible.
